**January 29th, 2026**

I'm Chris a passionate solo game developer that has worked in both television and gaming for over 12 years.

Adrian Bagherpour assisted me in Quality Assurance Testing in my games with exceptional feedback and a high degree of talent in the QA realm. He has directly helped with improving my games through the feedback he provided. Adrian even found some hidden bugs I completely missed.

I see plenty of passion in the way Adrian works, with a great work ethic and honesty.

This is why I would recommend Adrian as a QA tester, I think he will be a good fit your project(s).

Feel free to reach out at christhegameDEV@gmail.com if you want me to elaborate on why I would recommend Adrian.

Thank you,  
**Chris Danelon**
